

xChange – Looking for partners in business informatics

03.09.2021 | Dear partners of Aalen University, we from the Business Informatics x-Change Team are planning to allow students to participate in digital courses and activities offered by our partner universities. This would allow an international digital exchange to socialize and to learn more about different cultures and languages. This can provide a relevant advantage in the future careers of Aalen's as well as your students. Are you interested in cooperating? Then please click the link below and fill our short survey by September 30, 2021. <https://www.hs-aalen.de/en/pages/xchange-survey>

Thank you in advance.

Best wishes

xChange Team
