(Junior) Developer - Central Engineering / Strategic Projects

SAP's vision is to help the world run better and improve people's lives.

As the cloud company powered by SAP HANA®, SAP is a market leader in enterprise application software, helping companies of all sizes and industries run better. SAP empowers people and organizations to work together more efficiently and use business insight more effectively. SAP applications and services enable our customers to operate profitably, adapt continuously, and grow sustainably. At SAP, we believe in the power of collaboration and empower our employees to perform at their best in an environment that encourages free and open expression of ideas. You'll work alongside creative thinkers who share your interests, while turning big ideas into reality for our customers. With innovative job training, mentors to help you grow, and the flexibility to balance your work and personal life, you'll be able to get more out of your career. It's no wonder that some of the sharpest minds from around the world are working for a company that is consistently recognized as a global top employer.

Now it's your turn to take the next step and help make the world Run Simple.

PURPOSE AND OBJECTIVES

Technology & Innovation (T&I) is responsible for SAP's overall platform and technology development such as SAP Cloud Platform and SAP HANA. In addition, T&I drives the incubation and adoption of intelligent technologies like Analytics, SAP Leonardo Machine Learning and IoT across SAP's product portfolio. The T&I board area is also in charge of SAP's global innovation agenda and builds new business model- and market-driven innovations to help customers realize the most business value.

The T&I Central Engineering team is also well known at the Executive level, resulting in various strategic projects coming directly from the Executive Board and Supervisory Board. In a flexible and fast manner, the Strategic Projects team, consisting of developers, designers, and architects, comes up with tangible solutions for these high-priority inquiries. Our tasks range from creating Keynotes, PoCs, and showcases to producing tangible software and being a respected advisor for other development units.

EXPECTATIONS AND TASKS

As a (Junior) Developer for Strategic Projects, you will be part of a technology-focused team that is built to shape the future generations of SAP software.

- What will you do in this team?
- Try to push the potential of different technologies, define and implement prototypes and solve software engineering challenges that come across with latest topics.
- Drive a portfolio decision if and how to invest in a topic.
- Identify and talk to experts in the specific topic area and drive SAP's presence.

This is an ideal role for a very focused and ambitious individual who is able to work in a high-pressure environment. At SAP, we have diversity at heart, so you will also be able to work with the brightest minds from a multitude of cultural and ethnical backgrounds.

EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES

Required skills

- University degree in computer science or a related field
- Solid programming skills and strong competencies in data structures, algorithms, design patterns, and software design
- Curious mindset with the ability to easily move into new topics and latest technology trends and profound knowledge of state-of-the-art cloud and mobile technologies, frameworks, and tools
- Very good English and/or German language skills - written and verbal

WORK EXPERIENCE

We look for risk-takers, collaborators, the inspired and the inspirational. We need people who are brave enough to work at the cutting edge and create solutions that will enrich and improve people's lives.

Your application documents should contain a cover letter reviewing your experiences and your interest, your CV, copies of your degrees and copies of references from your former employers. PhD graduates are welcome to apply!

#VISETP062019 WHAT YOU GET FROM US

Success is what you make it. At SAP, we help you make it your own.

A career at SAP can open many doors for you. If you're searching for a company that's dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now.

SAP'S DIVERSITY COMMITMENT

To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company.
