Step out of your comfort zone, excel and redefine the limits of what is possible. That's just what our employees are doing every single day – in order to set the pace through our innovations and enable outstanding achievements. After all, behind every successful company are many great fascinating people.

## You will

- work in cross-functional organized teams to improve existing pilot processes and defining new scalable processes
- develop a frame playbook to define and describe standard frame digitalization processes
- support setting up weekly meetings to align with different stakeholders on the frame playbook
- assist in the preparation and execution of stakeholder meetings
- assist in the preparation and execution of Pi Planning sessions with attendees of different hierarchical levels

## You have

- currently studying bachelors in any field with focus on production / industrial engineering
- interest in organization and documentation
- good MS Office skills
- very good knowledge of written and spoken English
