

**You make the difference.**

## **European Graduate Program (01.10.2021 / different locations across Europe)**

**Are you looking for an opportunity where you can bring your unique skills and talents to work every day? Do you thrive on ideas and making a visible impact? Do you want to work with colleagues who are as excited about what they do as you are, and who are building meaningful careers? Join our two-year-rotational European Graduate Program now!**

Avery Dennison Corporation is a global materials science and manufacturing company specializing in the design and manufacture of a wide variety of labeling and functional materials. Headquartered in Glendale, California, the company employs approximately 30,000 employees in more than 50 countries. Reported sales in 2019 were \$7.1 billion. Learn more at [www.averydennison.com](http://www.averydennison.com).

Our European Graduate Program is offered in several different functions including **Operations, Supply Chain, R&D, Commercial (Marketing & Sales), Finance** and **Data Science**. Being part of this program, you will put your skills into practice working on challenging, multi-faceted assignments within your area of expertise, often even in two different European countries.

Your tasks will vary depending on which track you decide to apply for. But no matter which path you choose - you can be sure to be exposed to assignments with real, hands-on responsibilities integral to our business. Your energy and drive, as well as your technical, communication and leadership skills, will ensure that you are able to make your mark and contribute to our ambition to define and deliver world-class processes, products and services.

While you are on this exciting journey, you will receive plenty of support along the way. Our **Mentoring Program**, combined with **a structured training curriculum** will enable you to build your skills and transition from college to the corporate workplace, leveraging strengths and defining your career path.

### **What we expect from you!**

- **University Degree (Bachelor/Master)** in a relevant field of study, depending on track your applying for
- **First relevant practical experience**, preferably in an international manufacturing environment
- A good level of **English**
- Willingness to relocate into different projects and locations across Europe during the program

We are looking for agile problem-solvers who enjoy working in a dynamic and collaborative environment, and who are striving to make a difference by contributing their own strengths and ideas.

We offer:

- Competitive Salary
- Relocation Support
- Structured Training Curriculum
- Mentoring Program

Applying for European Graduate Program means going all out for an exciting, dynamic and multi-faceted opportunity that offers new challenges each day. Ready to take on the challenge? Learn more about the program [here](#) and apply online now via our [Career Pages](#) now!
